

General information

Antenna covering the ISM band from 2400 to 2485 MHz. The antenna has U.FL (MHF) connector on cable and the antenna has a thread with a nut and washer for firm mounting on various material and thickness.

The Ex-It 2400 70 is a half wave antenna that gives good performance independent of ground plane.

Technical data

Frequency	2400-2485 MHz
Return loss	< -9.5 dB
Gain	Max 3 dBi
Dimension	9.5 x 70 mm (excluding cable and thread)
Mounting	Through hole screw mounting.
Connection	100 mm cable with U.FL connector.
Temperature	-40 to +85 ⁰ C
Fire class	Non-flammable
RoHS status	Compliant with EU directive 2011/65/EU and 2015/863

Applications

M2M-communications
Telemetric
Automated Meter Reading
Alarms

Ordering information

Part number	Part name	Details
PRO-EX-327	Ex-it 2400 70	Antenna for 2400 MHz. 100 mm cable with U.FL (MHF) connector.

For information on sales, delivery terms and conditions and prices, please visit the Proant website (www.proant.se) for a complete list of distributors.

Proant offers consultation with design-in of the InSide antennas. Proant have all necessary capabilities for antenna design including anechoic chamber and prototype workshop. Please send your requests to info@proant.se.
