

September 2021

Dear Customer,

As Carlo Gavazzi develops and introduces new products to best serve our customers, we continually review the product lifecycle of the existing portfolio. With the recent addition of several inductive families, Carlo Gavazzi is announcing the phase out and discontinuation of specific parts of the existing portfolio (reference list below).

Please note the following dates:

- September 2021 – phase out notification of select inductive part numbers
- November 2021 – list price increase of inductive part numbers on reference list
- June 2022 – last order date of inductive part numbers on reference list

Our intent is to continue offering these inductive sensors through June 2022. Carlo Gavazzi is eager to assist you during this transition. While we regret any inconvenience this announcement may have caused, we are looking forward to continuing to support your sensing needs. Please contact us if you have any additional questions.

Sincerely,

Jill Oertel
