

Global Change Notification (GCN)

Product Family	MX150	10641591	
		GCN Number	
Series	3348220**	July 07, 2014	
		Date Issued	
Reason For Change	Product Component Change		
Change Description	This letter is to inform you of a product change to a single component associated with the MX150 2x10 Blade Connector. The impacted component is the Mat Seal. The reason for this change is in response to the growing desire to use smaller size wire. This is an OEM directed change, and OEM approval will be provided as part of implementation. The terminal hole geometry within the Mat Seal has been optimized to accept wire as small as 0.35mm ² (1.2 mm OD) while continuing to support larger wire up to 14AWG. The change is reverse compatible with the current seal design. The color of the seal will be changing from Rust Red to Light Blue to indicate this change and the allowable use of 0.35mm ² wire. In addition to the visible change, the part numbers will be changing from 33482-20xx to 33482-21xx. Example: 33482-2001 will now be 33482-2101 Please see Addendum for a complete list of current and replacement part numbers. 33482-20xx will be obsolete after the Date of Implementation. 33482-20xx will not be shipped and orders will not be excepted after this date. Orders can be accepted as early as June 1, 2014 for the new part numbers. PPAP and samples will be available at the end of May 2014.		
Part Numbers Affected	Please refer to CustomerPartList.csv attached to e-n	nail message.	
Reason For Short Notice Exception	Special Request		
Assessment Of Change (How Product Will Be Qualified & Validated)	validation testing		
Internal Molex Qualification Date (Planned Date Information Available)	April 14, 2014		
Sample Availability Date (Changed Part)	April 14, 2014		
Date of Implementation	November 01, 2014		
Method of Identifying Change	Seal color difference and part number change		
Recommended Replacement Parts	3348221**		
Last Time Buy Date for Obsolete Parts	October 31, 2014		
Last Time Ship Date for Obsolete Parts	October 31, 2014
