Production

In-house film metallization in Spain and India

An in-house film metallization and cutting process is already in place at several EPCOS plants. This process is now also being established at the plants in Málaga, Spain, and Bawal, India.

These plants will then use in-house metallized film in addition to the metallized film supplied by qualified vendors for the manufacture of power capacitors. The same quality process is applied to the metallized film produced by EPCOS as to the metallized film supplied from external vendors.

Affected products

Ordering code	Type	Production facility
B25610* B25640* B25650* B25655A* B25655B* B25655C* B25655D* B25750*	Power film capacitors	Málaga, Spain
B256* B323*	PFC film capacitors	Bawal, India

Scheduled date of introduction: July 31, 2014
