

Microsemi Corporation

March 7, 2016

Product Discontinuance Notification (PDN) No: 154440

Subject: Le9500 and Le9531 Line Circuits Families Obsolescence

Description:

Microsemi is announcing the discontinuance of a number of older generation Line Circuit devices listed in Appendix A.

Reason for Discontinuance:

The decision to discontinue these products was driven by diminished demand and low forecast volumes.

Customer Impact:

The devices listed in Appendix A are being removed from Microsemi's product offering and will no longer be available for order after December 7, 2016.

Orders for these products will be non-cancelable and non-returnable. There is a limited inventory of these parts, so orders will be taken on a first-come, first-served basis. Please contact your local Microsemi Sales Office for information regarding conversion to alternate parts.

Replacement Parts:

There are no pin compatible replacement devices. Devices similar in function are available from Microsemi. Please contact your local Microsemi Sales Office or the company web site for more information on these products.

Last Order Date: December 7, 2016

Please note that all orders must be booked as non-cancelable non-returnable (NCNR) by no later than December 7, 2016. No new orders will be accepted after this date.

Although Microsemi will attempt to accommodate all requirements, it is highly recommended that orders be placed as far as possible in advance of the order deadline.

Last Shipment Date: December 7, 2017

Please note that Microsemi will continue to ship last-time-buy orders as requested only through December 7, 2017. Product orders must be scheduled to ship no later than this date.

Products Affected by this Discontinuance:

Refer to Appendix A for the list of products.

Note: This is a list of Ordering Part Numbers (OPNs) as are found in product datasheets. Customers may track additional part number variants in their systems, so please consider this a base part list.
